

Flagler County COrE

Coordinated Opioid Recovery

A NETWORK OF ADDICTION CARE

WHAT IS COrE?

The Coordinated Opioid Recovery (COrE) initiative consists of a group of local organizations who are dedicated to providing whole-person care for those suffering with opioid use disorder. This program will give you a real chance at recovery with support from all sides.

The key features of this program include the following:

- **FREE Provider Visits:** Regardless of whether or not you have insurance
- **CONFIDENTIAL:** No one outside of your care team will know you are receiving treatment
- **No law enforcement involvement:** We are not looking to get you into trouble, we just want to help
- **Peer support:** Individual support from someone with lived experience
- **Medication-Assisted Treatment:** Evidence-based opioid use disorder treatment (Available Tuesdays & Fridays only)
- **Counseling:** Behavioral health support continues past just the opioid use disorder treatment
- **Care coordination:** COrE supports the whole person and all presenting needs

WHO IS INVOLVED?

Flagler County COrE employs a team of local agencies committed to giving those struggling with opioid use disorder a real chance at recovery. The team includes peer support specialists, community paramedics, care coordination staff, counselors, and medication assisted treatment providers from each of the agencies shown here.
